## Terrace / Balcony / Loggia enclosure

Aesthetics | Functionality | Protection

# Shutters

## - Aluminum sliding shutters

- Control the amount of light (slide panels, adjust the angle of inclination)
- Protect a selected area (one panel divided into 2 zones)
- Choose the desired quantity of panels and configuration

- Enhance your terrace/balcony/loggia (wide range of colors, including wood-like finish)
- Provide a durable aluminum enclosure without the need for maintenance

WOOD-LIKE PAINT FINISH

# System of sliding glass enclosures

- Shield yourself from wind and rain without obstructing the view and access to light
- Increase the amount of time spent on the terrace/balcony/loggia
- Choose the desired quantity of glass panels and configuration
- Provide an elegant, almost invisible enclosure
- Opt for a durable and safe construction with tempered glass of 8, 10, or 12 mm thickness

Tempered glass

Cascade system

Upper and bottom lock
